

KEEPING YOU SAFE: STEPS WE CAN TAKE TOGETHER

to ensure everybody visits us safely

SYMPTOM CHECK

We ask all visitors to complete a simple health declaration before arrival. Staff are also required to complete a daily online health check before work. Anybody displaying symptoms should not be onsite.

RESPECT EACH OTHERS SPACE

1 way systems, clear signage and pre-arrival information all intended to explain how we can enjoy each others company from a socially acceptable distance.

KEEPING THINGS CLEAN

We have a regular, recorded deep-cleaning cycle, loads of handwashing and sanitiser points available throughout the centre and reminders for all. Safety equipment and vehicles are sanitised regularly and in line with Government advice.

FACE COVERINGS

We will always respect your space, however aspects of our work require us to check safety equipment. In order to do this, staff will wear PPE for your safety and respect your wish to wear your own face coverings if you wish.

TRACK AND TRACE

Guests will be asked to provide some personal information for track and trace purposes.
